June 20, 2001

I presume you received your California Miners scale from me and wanted to tell you that a choice example of it sold on EBay for \$922 recently.

As to your interest in weights I found in my holdings a cylindrical brass weight with a knob top stamped "2 lb." I have no idea where it came from but if you want it perhaps you can send me in exchange some mid nineteenth century type grain weights you may have accumulated.

My best,

Eric P. Newman
